

#FutureYangu PODCAST

#FutureYangu podcast series is a career guidance and counselling program for Form 4 secondary school students. It is to be delivered in a new innovative digital modality using audio podcast on an App downloaded on a mobile smartphone. The phone will be connected to a Bluetooth speaker to allow for wide listening in the classroom.

TECHNICAL SUPPORT

About #FutureYangu delivery

The teacher's role in delivery, is key as they serve as facilitators of classroom engagement and learning around the podcasts. In addition to guiding the students on the content it will also be their role to manage the technical equipment.

We have therefore developed the following information, it is intended for the teachers, the Fema club Mentors or Counsellors who have been selected to deliver the #FutureYangu Podcasts 2023.

#FutureYangu podcast - technical support.

Hosting:

#FutureYangu Podcast is hosted on the Boresha Educational Radio platform under the RUKA Creatives company. It is available on the #FutureYangu website and in a Mobile App which can be downloaded from both Adroid and iOS smartphones.

Guidelines:

To deliver the #Future Yangu podcasts the teachers are provided with a mobile phone and a Bluetooth speaker, charger, and a cloth bag for storage.

To regulate the use of this equipment, we have developed an equipment policy, to help in use and storage. The Headmaster and Fema teacher mentor will sign the equipment policy agreement detailing their responsibility for the equipment.

Operate the App:

To operate the #FutureYangu Podcast App, follow the procedure below:

- a. unlock your phone
- b. click on the #FutureYangu icon
- c. #FutureYangu App home page opens
- d. click on Career Guidance & Counseling
- e. to listen to the podcast; click on the episode you want, and press Play
- f. to read about the program click on the Summary Menu
- g. to go back to the Main Page; click the arrow on the top left corner

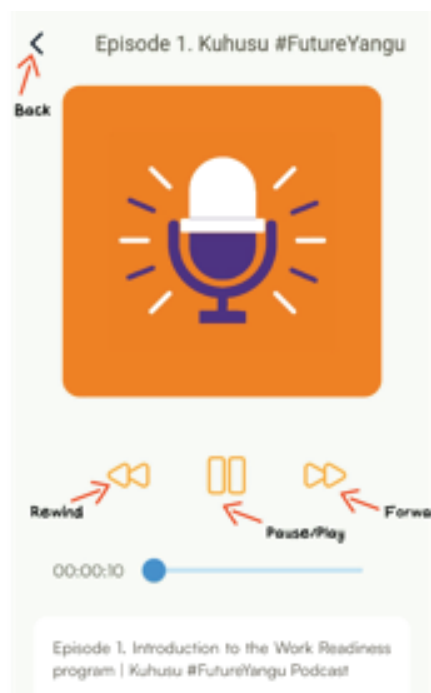

How to connect to the Bluetooth speaker:

- Turn on your speaker
- Go to your mobile phone Settings; More Connection > Bluetooth > Click on T8 (Bluetooth speaker brand).
- You can also use an auxiliary cable provided, to connect with the phone through AUX port on the Bluetooth speaker (earphone port).

REMEMBER! Before you start your #FutureYangu class session:

- the phone and speaker must be fully power charged
- the phone must be connected to a Bluetooth speaker
- the speaker is audible (loud, so all can hear!)
- the phone is disconnected to the Internet so there is no interruption!

Good luck with your #FutureYangu podcast sessions!
